THE CENTRE HISTORIQUE MINIER

Located at the entrance to a former pit, the Centre Historique Minier is the largest mining museum in France. It attracts some 165,000 visitors each year as it is a remarkable site in the Mining Basin listed as UNESCO World Heritage.

Operating from 1931 to 1971, this coal mine still features original buildings including the bathroom, lamp store, stables and mining machinery, all fully preserved.
An exciting visit to an industrial site in northern France.

GUIDED TOUR OF THE GALLERIES

EXHIBITIONS AND THE HISTORIC BUILDINGS

With a guide, experience three centuries of coal-mining during your tour of the mine's galleries. Audio commentary and noises of machinery in operation conjure up the atmosphere of mining throughout the ages. Find out all about working conditions, technical progress and danger at the coal face!

Audio commentaries available in 6 languages

The mine is not just about underground work, quite the contrary... major exhibitions take you on a unique adventure on an industrial and human scale, recounting how the coal got there in the first place, major events in mining history or how miners used to spend their free time.

The exhibitions are illustrated by hundreds of items and archival documents from our collections and immerse you in the exciting world of mining.

Authentic workplaces

In this former coal mine shaft, all the original buildings have been preserved, including the bathroom and lamp room...
